TESTING YOUR EIFS KNOWLEDGE

The energy codes apparently are for real and are only going to become more stringent. The design community are looking for ways to meet the energy codes and are rethinking EIFS as a logical cladding option.

For some, we may have become rusty with our EIFS knowledge. Others may not be aware the changes the EIFS industry has made lately and still call it EFUS. Some may have only recently been exposed to EIFS. This meeting will test your basic knowledge of EIFS with a couple of surprises thrown in.

A limited amount of tabletops are available for \$75 and all proceeds go to the evening's raffle

MAKE YOUR RESERVATIONS PRIOR TO 10/12/18
